

# PENDLE VALLEY WORKSHOP CATALOGUE 2022

## LINESIDE BUILDINGS

### PVW001 Water Tower Kit £65:00 (UK P&P £7:00)

The Water Tower is a freelance design, manufactured in exterior quality resin. The fittings are brass, alloy, plastic, cloth and chain. An etched brass ladder, and etched brass red warning sign are included. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions of the Water Tower are: Base (H) 185mm x (W) 90mm x (D)90mm. Tank Top (H) 95mm x (W)107mm x (D)107mm The overall height is 280mm including base & tank.

### PVW002 Police Call Box Kit £25:00 (UK P&P £4:50)

The Police Call Box Kit comes made from our usual quality resin and would make a pleasing addition to any railway scene.

The Dimensions are (H)130mm, (W)70mm, (D)70mm

Also available is **EA099 Police Call Box Flasher Unit £15:00**

### PVW003 Lineside Hut Kit c/w Slate Roof £35:00 (UK P&P £4:50)

The Lineside Hut is supplied in unpainted kit form manufactured in exterior quality resin. It depicts a stone built semi prototypical lineside hut complete with slate roof, brick chimney and stack. To add to the railway charm the door and window lintels are moulded as railway sleepers. It would also be suitable for use as a small office. Ideal for internal illumination. You get everything you require to build this kit except for glue and paint which we can also provide if required. Dimensions: (H) 133mm x (W) 162mm x (D) 130mm Door is (H)90mm x (W)46mm. PA011 Coal Office and PA012 Goods Office Signs are painted black and available as extra detailing £3:50 each, sign dimensions 23mm x 6mm.

### PVW005 Lineside Hut Kit c/w Corrugated Roof £32:00 (UK P&P £4:50)

The lineside hut is supplied in unpainted kit form manufactured in exterior quality resin. It is a stone built semi prototypical lineside hut complete with corrugated roof. To add to the railway charm the door and window lintels are moulded as railway sleepers. Suitable for use where lineside space is limited. Ideal for internal illumination. You get everything you require to build this kit except for glue and paint which we can also provide if required. Dimensions: (H)

110mm x (W) 157mm x (D) 92mm Door is (H) 90mm x (W) 46mm

### PVW006 Lamp Room Kit c/w Sign £15:00 (UK P&P £4:50)

This is a exterior quality resin moulded semi prototypical building based on many types found on narrow gauge to main line railways alike whilst a lamp room is the main usage other applications are only limited by your imagination it could even be used as the smallest room on the station. It is shallow in depth and consequently will fit ideally into limited lineside space or could be used to conceal battery boxes for nearby lighting applications. Kit supplied unpainted. You get everything you require to build the lamp room except for glue and paint which we can also provide if required. Dimensions: (H) 115mm x (W) 70mm x (D) 50mm Door is (H) 92mm x (W) 40mm

**PVW0008 Kiosk Kit £35.00 (UK P&P £4.50)**

Maybe this could be a cake or Hot food kiosk its entirely up to you. You also get 2 blackboards (not shown) to attach on either side of the serving hatch or glue them back to back along the top edge and make them into an A frame sign. The lettering on the sign is not included in the kit, its upto you to name it. The only other extras you will need to finish it are Glue and Paints which we can also supply. The dimensions are (H to top of sign) 145mm (W) 160mm (D including open hatch) 150mm

**PVW015 Small Halt Kit £45:00 (UK P&P £4:50)**

It's just the right size to position anywhere along your line, no facilities just shelter, hark back to the days when you could request a train to stop. The Halt is supplied in unpainted kit form manufactured from exterior quality resin with ornamental alloy brackets, plastic valance and lead free pewter finials. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 174mm to ridge x (W) 120mm x (D) 130mm

**PVW016 Small Ticket Office Kit £65:00 (UK P&P £7:00)**

**c/w Ticket Office sign**

Where a station would be unnecessary why not open a ticket office. The building would also be useful as a Parcels office. We offer two options Pack A and Pack B dependent upon your choice.

These packs contain two windows and a painted etched sign as appropriate. This small office can be combined with PVW017 Small Station Kit and/or PVW018 Large Station Kit. The office is supplied in unpainted kit form manufactured from exterior quality resin with alloy brackets and plastic valance. The kit also contains semi opaque crystal resin canopy and windows. As with all of our kits you get

everything you require to build this kit except for glue and paint which we can also provide if required. Ideal for internal illumination. The Dimensions are (H) 230mm to chimney top x (W) 170mm x (D) 180mm inc canopy

**PVW017 Small Station Kit c/w Etched Painted Sign £75:00 (UK P&P £7:00)**

This building depicts a stone built semi rural station complete with brick chimney and stack. This small station can be combined with PVW016 Small Ticket Office and/or PVW018 Large Station Kit. The Small Station is supplied in unpainted kit form manufactured from exterior quality resin with ornamental alloy brackets and plastic valance. The kit comes complete with etched painted waiting room sign. It also contains semi opaque crystal resin canopy and windows. You get everything you require to build this kit except for glue and paint which we can also provide if required. It is Ideal for internal illumination. The Dimensions are (H) 265mm to chimney top x (W) 210mm x (D) 220mm inc canopy

**PVW018 Large Station Kit c/w Etched Painted Signs £120:00 (UK P&P £14:00)**

This building would be suitable for more densely populated areas, any of those cities or towns served by your narrow gauge railway. It has an upper storey suitable for living accommodation or additional railway offices. The Large Station is supplied in unpainted kit form manufactured from exterior quality resin with ornamental alloy brackets and plastic valance. It comes complete with etched painted waiting room and booking office signs. This kit also contains semi opaque crystal resin canopy and windows. You get everything you require to build the kit except for glue and paint which we can also

provide if required. It is Ideal for internal illumination. The dimensions are (H) 362mm to chimney top x (W) 365mm x (D) 255mm inc canopy

**PVW019 Lean to Station Toilet Kit c/w Etched Painted Sign £20:00 (UK P&P £4:50)**

Gentlemen need never be caught short again why not add this facility to the side wall of PVW017 Small Station or PVW018 Large Station. The lean to station toilet is supplied in unpainted kit form manufactured from exterior quality resin and a painted etched Gentlemen sign. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 123mm x (W) 150mm x (D) 80mm

**PVW020 Workshop Kit £45.00 (UK P&P £4:50)**

This building can be used as many different things, It could be a Workshop, hobby room for you model railway or even a general utility building. The doors are separate casting so can be glued in any position you choose. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions with the doors closed are (H) 200mm x (W) 170mm x (D) 145mm

**PVW023 Terraced Cottages B Kit £90:00 (UK P&P £14:00)**

Our 2<sup>nd</sup> Terraced Cottage kit, it has a new window / door arrangement and has separate doors (4 different) and windows with clear glazing. This building depicts a delightful pair of terraced cottages with two sets of identical accommodation across two floors. Ideal railway workers homes 'love thy neighbour'. Very similar in structure to the large station but with character doors and less width. The kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 362mm to chimney top x (W) 355mm x (D) 155mm

**PVW024 Small Cottage Kit £48:00 (UK P&P £7:00)**

This building depicts a single storey stone built very basic cottage with minimum accommodation. A high level of external detail is featured and includes sash windows, character door, rainwater goods, chimney and a slate tiled roof. A cosy hideout for the crossing keeper. This illustration shows optional scullery lean-to as below. This kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 265mm to chimney top x (W) 210mm x (D) 155mm

**PVW025 Crofters Cottage Kit £65:00 (UK P&P £14:00)**

This building depicts a single storey stone built cottage with additional living accommodation ideal as a crofter's cottage. A high level of external detail is featured. The kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 212mm to roof top x (W) 310mm x (D) 155mm

**PVW026 Large Cottage Kit £70:00 (UK P&P £14:00)**

This building depicts a two storey stone built cottage with accommodation on each floor a very comfortable station master's home. The kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The building features a high level of external detail. The dimensions are (H) 362mm to chimney top x (W) 185mm x (D) 155mm

**PVW027 Terraced Cottages Kit £90:00 (UK P&P £14:00)**

This building depicts a delightful pair of terraced cottages with two sets of identical accommodation across two floors. Ideal railway workers homes 'love thy neighbour'. Very similar in structure to the large station but with character doors and less width. The kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 362mm to chimney top x (W) 355mm x (D) 155mm

**PVW028A Engine Shed Kit (A) Doors at one end £135:00 (UK P&P £14:00)**

**PVW028B Engine Shed Kit (B) Doors at both ends £135:00 (UK P&P £14:00)**

A home for the lines pride and joy this typically styled capacious narrow gauge shed is of solid stone construction topped with a slate roof and elegant roof and overdoor vents. There are four large 12 pane windows on each side to flood the workforce and their tasks with light. To enhance railway character both the windows and the pair of huge entry doors are capped with sleeper style timber. The Engine shed (kit A) is supplied with Door End and a Blank End. It is possible to provide doors at both ends (kit B). This kit is supplied in unpainted kit form manufactured from exterior quality resin and cast alloy metal windows. You get everything you require to build the kit except for glue and paint which we can also provide if

required. The dimensions are (H) 320mm to top of roof not the vent x (W) 395mm x (D) 235mm. Door Details are (H) 220mm x (W) 160mm

**PVW029 Goods Shed Kit £125:00 (UK P&P £14:00)**

This charming goods shed is An ideal partner to the similarly styled PVW028 Engine Shed. An essential intersection between road and rail. Three massive windows light the loading bay, its stone fronted platform is topped with large slate slabs and opens into the yard via two huge timber doors which can be fixed on their runners either open or closed or made moveable with minor modification. The design shown is for illustration purposes only and may be subject to slight modifications. This kit is supplied in unpainted form manufactured from exterior quality resin and cast alloy metal windows. You get everything you require to build the kit except for glue and paint which we can also provide if required. The dimensions are (H) 320mm to apex x (W) 300mm x (D) 286mm.

**PVW030 Large Halt Kit £65:00 (UK P&P £14:00)**

More salubrious than our more basic PVW015 Small Halt Kit this beautifully proportioned shelter is ideal for those longer waits in inclement conditions the stone and slate building features a waiting area enclosed by a door c/w fireplace and a covered bench stylishly finished with two ornate brackets and our distinctive finials. This kit is supplied in unpainted form manufactured from exterior quality resin. You get everything you require to build the kit except for glue and paint which we can also provide if required. The dimensions are (H)193mm to top of roof x (W)315mm x (D)120mm

**PVW031 Scullery Lean-to Kit £20:00 (UK P&P £4:50)**

This Lean-to is a freelance design. ,A luxury addition to the Crofters, Small and Large Cottage in the form of a stone built lean-to with corrugated roof. Drain pipe and gulley detail are featured beneath the cross pane window. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 120mm x (W) 120mm x (D) 82mm

**PVW032 Corrugated Iron Hut Kit £28:00 (UK P&P £4:50)**

The Corrugated Iron Hut is a freelance design, manufactured in exterior quality resin, is unpainted and in kit form. Listen to the rhythm of the rain whilst sheltering in this hut made from corrugated material features include cross pane window, door and a brick stack chimney for optional fitment. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 130mm to chimney top x (W) 160mm x (D) 110mm.

**PVW033 Goods Shed Office Kit £47:00 (UK P&P £7:00)**

A deliberately compact building designed to fit adjacent to the goods shed or as an ideal standalone office. Stone construction slate roof complete with brick chimney stack and pot, and an etched brass painted Goods Office sign. This kit is supplied in unpainted form manufactured from exterior quality resin. You get everything you require to build the kit except for glue and paint which we can also provide if required. **PVW036 Village Church/Chapel Kit £130:00 (UK P&P £14:00)**

The Church/Chapel is a freelance design, manufactured in exterior quality resin, is unpainted and in kit form. It is not based on any particular faith and as such can easily be adapted to suit. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 220mm to apex x (W) 340mm x (D) 160mm, Tower (H) 280mm not including spire x (W) 120mm x (D) 115mm.

**PA072 Church Gate & Bench Pack £6:00 (UK P&P £4:50)** The gate and bench pack comprises gate, gate posts, alloy hinges, bench top and supports and is ideally suited for use with our PA060 random walling sections. They are freelance in design and manufactured in exterior quality resin, unpainted in kit form.

**PA073 Gravestone Pack £6:00 (UK P&P £4:50)** This pack features six different gravestone's and two cross supports which can be affixed as appropriate. They are freelance in design, manufactured in exterior quality resin and provided unpainted. The dimensions are between 50-60mm (H)

**PVW037 Railway Inn Kit £110:00 (UK P&P £14:00)**

Ever dreamt of owning your own pub, now is the chance to take vacant possession and imagine pulling pints in your very own hostelry. None of your gassy beer either, we're talking real fine ales. The building offers a very welcoming frontage which as you would expect draws the discerning eye and taste buds in with its magnificent Georgian pane windows and beautifully framed main entrance door. The kit is supplied complete with two railway signs one either hanging or fixed to the building with the second one forming the focal point of the character laden combined village pump/pub sign. This elegant structure can be further enhanced by the addition of a lean-to spirit store as shown in the picture (But not supplied in kit). This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 330mm x (W) 317mm x (D) 195mm

### **PVW038 Inn Lean-to Kit £30:00 (UK P&P £4:50)**

Add an extra dimension to your pub with this charming stone built spirit store lean-to topped with slate and graced with two square Georgian windows as well as a fully planked stable door. This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are: (H) 180mm x (W) 125mm x (D) 140mm.

### **PA100 Cellar Doors £8:00 (UK P&P £4:50)**

Add a little more detail to your pub or maybe at the back of a house. This Cellar door comes as a one piece casting in our exterior quality resin and is just ready for painting. The dimensions are (H at rear) 28mm x (H at front) 13mm x (W) 75mm x (D) 75mm

### **PVW039 Shop A – Square Window Kit £70:00 (UK P&P £14:00)**

Everyone feels the need to shop, so do it in style with this hand sculpted quintessentially British shop no 'sterile supermarkets allowed'. The large display window and arched top door can be tailored to suit any retail environment. The kit is supplied with a separate shop name board which can be customised and mounted on the decorative lintel. This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 330mm up to apex x (W) 185mm x (D) 165mm. A separate free standing merchandising display kit PA077 is available for use either within or outside the shop.

### **PVW040 Shop B – Double Arch Window Kit £70:00 (UK P&P £14:00)**

Again with the desire to shop, as a priority this kit goes further back in time. Its style is further enhanced by an elegant double arched display window which partnered with the door presents a quality shop front. The kit is supplied with a separate shop name board which can be customised and mounted on the decorative lintel. This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 330mm up to apex x (W) 185mm x (D) 165mm. A separate free standing merchandising display kit PA077 is available for use either within or outside the shop.

### **PVW041 Garage Kit £120:00 (UK P&P £14:00)**

The inevitable increase in motor traffic makes this garage building a more common site on layouts. An ample workshop entrance is provided complete with three single doors which can be built either closed or folded back in open positions. An external alcove houses the British Petroleum Pump which evokes the days when you asked for a pounds worth of petrol. Just inside the entrance is an office created by the inclusion of a full height internal wall which features an access door and window so the owner can monitor the efforts of the junior mechanic. A separate name board is supplied which can be customised and mounted on the decorative lintel flanked either side by genuine ornate metal brackets. This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 330mm to apex x (W) 320mm x (D) 252mm.

**PVW043 Workers Cottages Kit £65:00 (UK P&P £14:00)**

This building depicts a pair of single storey 1 room stone built cottages. A high level of external detail is featured. The kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 200mm to roof top x (W) 310mm x (D) 130mm

**PVW045 Country Station Kit £150:00 (UK P&P £14:00)**

This is a semi prototypical building which is based largely on many of its type found on Narrow Gauge and Mainline Railways alike. Applications are only limited by you imagination but a Country Station is the Obvious one. This sort of building would be found in small towns or significantly sized areas or rural activity, This kit includes etched brass valances. You get everything you require to build this kit, except for glue and paint which we can also provide if required. The Dimensions are (H) 240mm to ridge (W) 540mm (D) 190mm

**PVW047 Small Slate Halt £45:00 (UK P&P £4:50)**

It's just the right size to position anywhere along your line, no facilities just shelter, hark back to the days when you could request a train to stop. The Halt is supplied in unpainted kit form manufactured from exterior quality resin with ornamental alloy brackets, plastic valance and lead free pewter finials. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 174mm to ridge x (W) 120mm x (D) 130mm.

**PVW048 Corrugated Station Building Kit £38:00 (£4:50 UK P&P)**

Modelled on Sylfaen Station on the Welshpool and Llanfair Railway this little corrugated building could be a welcome addition to any railway. This kit comes with both exterior and interior detail. The building is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 150mm x (W) 135mm x (D) 100mm

**PVW049 Water Mill Kit £85:00 (UK P&P £14:00)**

Based loosely on Glendale Mill on the Isle of Skye this mill can be used with a water feature or just as happily next to a dried up stream.

The Kit comes with the building, mill stones and water wheel which you can make rotate if you desire.

This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 215mm x (W) 310mm x (D) 155mm.

**PVW053 Gate House Kit £50.00 (UK P&P £7:00)**

If You have a Lord of the Manor maybe his groundskeeper could live here. This kit is manufactured from exterior quality resin and provided in unpainted kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 230mm x (W) 155mm x (D) 155mm.

**PVW066 Wooden Lineside Hut Kit with Felt Roof £30:00 (UK P&P £4:50)**

This Wooden Hut is a freelance design, manufactured in exterior quality resin, is unpainted and in kit form. This Hut comes with a Felt roof as would have perhaps been the choice when the building was first built. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 110mm x (W) 160mm x (D) 110mm

**PVW067 Wooden Lineside Hut Kit with Corrugated roof £30:00 (UK P&P £4:50)**

This Wooden Hut is a freelance design, manufactured in exterior quality resin, is unpainted and in kit form. This Hut comes with a Corrugated roof as would have perhaps been used as a replacement when original roof needed repairing. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 110mm x (W) 160mm x (D) 110mm

**\*NEW\* PVW068 Small Engine Shed £75:00 (UK P&P £14:00)**

This Small Engine shed is designed to accommodate Roundhouse diesel loco's Bulldog, Little John & Hercules. Manufactured in exterior quality resin, it is unpainted and in kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 225mm x (W) 255mm x (D) 225mm

**\*NEW\* PVW072 Portacabin £50:00 (UK P&P £4:50)**

This useful building can be used almost anywhere, as a temporary structure on a new station or as the office on a building site amongst others.

Manufactured in exterior quality resin, it is unpainted and in kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 120mm x (W) 250mm (D) 150mm

**\*NEW\* PVW073 Wooden Shelter £35:00 (UK P&P £4.50)**

This building can be used as a shelter on a small wayside station or maybe you have a busy bus stop where you could keep passengers dry.

Manufactured in exterior quality resin, it is unpainted and in kit form. You get everything you require to build this kit except for glue and paint which we can also provide if required.

The dimensions are (H) 165mm x (W) 170mm (D) 100mm

# SIGNALING

## PVW021 Signal Cabin Kit £75:00 (UK P&P £7:00)

A charming building ideally suited to layout areas with modest signalling and point switching requirements. Signalmen will benefit from excellent visibility and enjoy the essentials and home comforts included with the kit such as a 5 Lever Frame, Table, Chair, Pot Bellied Stove, Kettle, Telephone and Wall Clock. The Signal Cabin is supplied in unpainted kit form manufactured in exterior quality resin and cast metal windows. It depicts a stone built semi prototypical cabin c/w slate roof topped with a stovepipe chimney in true railway fashion the crisp alloy moulded windows and preformed door are headed by local stone lintels and distinctive railway finials. We even include a painted etched brass

'No Unauthorised Persons' sign. Ideal for internal illumination using PA047 Industrial Lampshade and EA025 12 volt Grain of Wheat Bulb. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 183mm to top of roof x (W) 160mm x (D) 130mm

## PVW022 Signal Box Kit £105:00 (UK P&P £14:00)

A classically designed full sized box suitable for those busier layout areas where perhaps train movements and goods sidings warrant the use of this imposing stone structure. Everything about it says quality and longevity, a fine addition to any profitable line. Solidly built stone signal box with its prototypical height giving an excellent all round view of your line. The inviting stone steps lead up to a handrail protected external landing where the door bears the etched brass 'No Unauthorised Persons' sign. Inspection of the interior reveals a very comfortable level of fit out including a 16 lever frame, Table, Chair, Pot Bellied Stove, Kettle, Telephone and Wall Clock. The whole building is topped with a slate roof, stovepipe chimney and a pair of stylish finials. The Signal box is supplied in unpainted kit form manufactured from exterior quality resin and cast metal windows. Ideal for internal illumination using PA047 Industrial Lampshade and EA025 12 volt Grain of Wheat Bulb. The Box also has a void beneath the floor to facilitate electrics, hydraulics etc.

You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 310mm to top of roof x (W) 290mm x (D) 163mm inc steps.

## PVW042 Midi Signal Box Kit £95:00 (UK P&P £14:00)

This character laden middle sized box is based around the design of its full sized counterpart. The main building occupies the same footprint but its diminutive height gives a further choice as it is placed beautifully between a cabin and a full sized box. Again its solid stone built slate roof quality is so evident but following complaints from the signalman during inclement weather a corrugated enclosure has been added. The simulated wooden steps complete with handrail lead to the covered landing where the door is fitted with the etched brass 'no unauthorised persons sign'. The interior includes a 16 lever frame, table, chair, pot bellied stove, kettle, telephone and wall clock. The whole structure is topped with slate, stove pipe chimney and a pair of stylish metal finials (not shown). The midi signal box is supplied in unpainted kit form manufactured from exterior quality resin and cast metal windows. Ideal for internal illumination using PA047 Industrial Lampshade and EA025 12 Volt Grain of Wheat bulb. You get

everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are Midi Signal Box (h) 230mm x (w) 240mm x (d) 130mm. Covered Landing (h) 190mm x (w) 70mm x (d) 65mm + steps.

**PVW044 Ground Frame Cabin Kit £30:00 (UK P&P £4:50)**

This cabin kit is small enough to fit in any garden railway, it represents a small wooden structure with a corrugated iron roof. It comes complete with 9 alloy levers. The Ground Frame Cabin Kit is supplied in unpainted kit form manufactured from exterior quality resin. You get everything you require to build this kit except for glue and paint which we can also provide if required. The dimensions are (H) 140mm x (W) 115mm x (D) 88mm

**PVW050 Home Signal Kit c/w Tapered Hardwood Post and Brass Signal Arm (Non working lamp)**

**£23:95 (UK P&P £4:50)**

A freelance narrow gauge working signal kit, which comprises a mix of etched brass, alloy and timber parts. An elegant finial tops the genuine hardwood tapered post. The spectacle plate, arm, stirrups and ladder are of etched brass which gives a superbly crisp appearance. The lamp comes complete with ornate bracket and lens and can be converted to a working model with minimal adaptation, using a grain of wheat bulb and cable, glazing is also included to depict home or distant versions. All bearings, levers, back blind, counterweights and working platform are alloy. Everything you require to construct a very attractive but working sturdy complete signal, except for paint and adhesive is contained in the kit. The Height of the Signal kit is 320mm (H) to top of post not finial.

**PVW051 Distant Signal Kit c/w Tapered Hardwood Post and Brass Signal Arm (Non working Lamp) £23:95 (UK P&P £4:50)**

detail as above. The Height of the Signal kit is 320mm (H) to top of post

Some appear as all white with others white topped with a black post, the choice is yours. The size of each sign is (H)66mm overall x 11mm (D)

## PA034 Ladder £6:50

This crisply detailed folded etched brass Ladder is 290mm in length and 16mm wide it is supplied unpainted and can be utilised as a signal/building ladder, oil tankers etc.

PA091 Railway Weather Vane £10:00

# GLUE, PAINT AND VARNISH

## PA150 4 Minute Epoxy II 224g £20:00 (UK P&P £4:50)

We use this epoxy resin to assemble our own range of buildings and accessories. It is very workable and highly successful with a setting time of 4 minutes. It allows for final repositioning but then sets firm allowing you without undue delay to move on to the next stage.

## PA151 4 Minute Epoxy Resin II 71g £11:50 (UK P&P £4:50)

A smaller version of the above.

## PA152 Rocket Super Glue (medium) £7:00 (UK P&P £4:50)

Each of Deluxe's Cyanos are designed each targeted at a specific modelling requirement. All are the high quality, triple-distilled variety for the best adhesion to a wide variety of materials. Perfect for most applications this is the medium thickness formula.

## PA153 Rocket Super Glue (Thick) £7:00 (UK P&P £4.50)

Each of Deluxe's Cyanos are designed each targeted at a specific modelling requirement. All are the high quality, triple-distilled variety for the best adhesion to a wide variety of materials. This is the more viscous gap filling formula.

## PA155 Glue Buster £7:50 (UK P&P £4.50)

Perhaps the most necessary item on any builders workbench, this does exactly what it says on the label, debonds cyano. Great for releasing poorly aligned hinges and joints, for cleaning up cyano 'staining' or covering and of course freeing your fingers after that unexpected incident!

## PA068 Acrylic Varnish Dead Flat 150ml £7:00 (UK P&P £ 4:50)

By popular demand the elusive dead flat acrylic varnish that we use for all of our models. Ideal invisible exterior protection for buildings, stock etc. Now available in this larger size

## PA069 Acrylic Varnish Dead Flat 50ml £2:50 (UK P&P £4:50)

By popular demand the elusive dead flat acrylic varnish that we use for all of our models. Ideal invisible exterior protection for buildings, stock etc. This 50ml bottle goes a long way.

## PA081 Degreaser £1:50

For cleaning your kit parts before painting

**Acrylic Paints Supplied in Flip Lid 2oz Bottles £2:00 each (UK P&P from £4:50)**

The acrylic paints are water based and extremely hardwearing. You can mix them together to create your own colours and they can be applied over car spray primer and Humbrol without causing any reaction to the paint underneath. Once dry it is advisable to coat your buildings, accessories, rolling stock etc with acrylic varnish to seal and protect them from the elements.

## LAMPS AND LIGHTING

### PA047 Industrial Style Interior Lampshade £1:25

Traditional industrial style alloy lampshade suitable for most lighting applications. Dimensions are 12mm (H) x 16mm Diameter.

### EA025 12 Volt Grain of Wheat Bulb £0:50

12 volt grain of wheat bulb this should have a life of circa 400 hours or more if underrun. Can be used to light signal lamps on PVW050/PVW051/PVW052 and for building illuminations. Suitable for use with above.

### EA047 12 Volt 2 Core Insulated Lighting Wire £0:50/METRE

Figure of 8 plastic insulated twin conductor wire, easy to handle, run, join and simple to hide. Suitable for use with above.

### PA029 Small Non Working Lamp £2:00

This versatile kit contains enough parts to make either version of the lamps shown. The kit includes Lamp Body, 2 Lens Cows, Angle Bracket and 2 Red and 1 white lens. Suitable for crossing gates, tail lamps or can be side mounted for brake vans etc. All parts supplied in alloy and unpainted. The lamp body measures 16mm in height from Ventilator to base of body.

### PA071 Tail Lamp Kit £4:50

The kit comprises one alloy lamp housing, 2AA switched battery box (batteries not included) 3 volt resistor, 5mm Red LED and 0.9mm pin. A working alloy lamp body complete with integral bracket featuring moulded ventilator, latch and bolt detail. Being flat backed it is ideally suited to rear vehicle mounting using the dummy bolt. Just drill through its centre using a 0.9mm drill and use the pin supplied for fixing. Cabling

can then be passed invisibly into perhaps a wagon or tram. We also provide a circuit diagram. This character laden lamp housing could just as well be fitted with either yellow or white LED's together with a different switch and battery arrangement please ask for advice. The overall height of the lamp including bracket and ventilator is 20mm.

**PA080 Head/Tail Lamp Casting £2.75** An alloy lamp body complete with integral bracket featuring moulded ventilator, latch and bolt detail. Being flat backed it is ideally suited to rear vehicle mounting using the dummy bolt. The overall height of the lamp including bracket and ventilator is 20mm.

# LOCOMOTIVE ENHANCEMENTS & MAINTENANCE

## PL001 Locomotive Sandboxes £6:00 (pair)

Unpainted alloy, perfect for decoration on your locomotives.

## PL038 Rerailing Bottle Jack - Traversing Type Kit £2:00

This useful and decorative accessory is ideal for positioning on a locomotive or perhaps on a works wagon. This type of Jack would typically be used in pairs to lift a derailed locomotive and move it sideways before lowering it back onto the track. The kit contains a pair of Jack's which are unpainted alloy and contain full instructions for assembly. Size of Jacks (H)18mm x (W)28mm

## PL039 K Pattern Oil Can £1:00

Add extra detail to your locomotive, yard or work bench with this delightful K Pattern Oil Can which is moulded in lead-free pewter.

## PL042 Locomotive Toolchest £3:00

This unpainted casting adds that refining touch to any locomotive or works wagon. A sturdy alloy item with planking, hinge and clasp detail. Size of Toolchest (H)13mm x (W)34mm

## PL050 Accucraft 'Baldwin S19' Coal Load £5:00

This item has been specifically designed to fit the bunker of the Accucraft 'Baldwin S19' locomotive this solid resin coal load is moulded to match the contour of the bunker it comes complete with three support stanchions which you can cut to your desired height to simulate a part or full bunker. It is provided slightly oversize so that light filing will produce a nice snug fit. It can be built as removeable so as to conceal radio/gear lighting batteries if desired. It is supplied in unpainted kit form and just needs glue and paint to complete (not supplied).

HH007 Small Head 6BA x ½" 4/pk £1.25

### Steel Nuts £1:00

SN007 Small 6BA 4/pk    SN008 8BA 10/pk  
SN006 6BA 10/pk

### Steel Washers £0.50 per pk

# LED'S RESISTORS & CABLING

Pictures shown are representative of the products and are not actual size.

- 
- EA001 5mm Red LED £0:20**
  - EA002 5mm Yellow LED £0:20**
  - EA003 5mm Ultra Bright White LED £1:60**
  - EA004 5mm Green LED £0:20**
  - EA007 5mm Orange LED £0:20**

All the above suitable for 3-12 volts, resistor required not included

- 
- EA005 5mm Red Flashing LED £0:75**  
suitable for 3-12 volts (resistor required not included)

**EA006 5mm Bi Colour Red/Yellow LED £0:75**  
suitable for 3-12 volts (resistor required not included)

**EA012 3mm Bi Colour Red/Yellow LED £0:75**  
suitable for 3-12 volts (resistor required not included)

- 
- EA010 3mm Clear LED £0:70**  
suitable for 3-12 volts (resistor required not included)

- 
- EA011 3mm Red LED £0:70**  
suitable for 3-12 volts (resistor required not included)

**EA020 3 volt resistor for use with above LED's using 3 volt supply £0:10**

**EA021 6 volt resistor for use with above LED's using 6 volt supply £0:10**

**EA022 9 volt resistor for use with above LED's using 9 volt supply £0:10**

**EA023 12 volt resistor for use with above LED's using 12 v supply £0:10**

- 
- EA015 3mm LED Clip a flush mounted surround for LED £0:20**
  - EA009 5mm LED Clip, a flush mounted surround for LED, Loco Head & Tail Lamps £0:20**

**EA026 Grain of Wheat Clear Bulb 6 volt 140mm tails £0:70**

**EA025 Grain of Wheat Clear Bulb 12 volt 140mm tails £0:75**

Supplied In 100mm length with a shrink ratio of 2:1

**EA035 1.6mm OD Heat Shrink Sleeve Red £0:20**

**EA036 1.6mm OD Heat Shrink Sleeve Black £0:20**

**EA037 2.4mm OD Heat Shrink Sleeve Red £0:20**

**EA038 2.4mm OD Heat Shrink Sleeve Black £0:20**

**EA045 Stranded Wire Black £0:25/Metre**

7/02mm Multicore Equipment Wire Rated 1.4A @ 1000v Max Outside diameter 1.2mm

**EA046 Stranded Wire Red £0:25/Metre**

7/02mm Multicore Equipment Wire Rated 1.4A @ 1000v Max Outside diameter 1.2mm

**EA047 12 Volt 2 Core Insulated Lighting Wire £0:50/METRE**

White Figure 8 plastic insulated twin conductor wire, easy to handle, run, join and simple to hide.

# SWITCHES

Pictures shown are representative of the products and are not actual size.

## **EA048 Toggle Switch SPDT (Sprung Centre Off) £2:70**

Miniature switch sprung centre off, 3 positions on/off/on. Hole required 4.5mm

## **EA049 Miniature Slide Switch £0:50**

Suitable for on/off

## **EA050 Miniature Slide Switch DPDT £0:50**

Suitable for on/off or it can be used as a direction switch Rated 5A/28V DC

## **EA051 Toggle Switch SPST £2:20**

Sub miniature switch 2 positions on/off hole required 4.5mm Rated 5A/28V DC

## **EA052 Toggle Switch SPDT £1:80**

Miniature switch centre off, 3 positions on/off/on. Hole required 4.5mm Rated 5A/28V DC suitable for head/tail lamp alternate switching

## **EA053 Toggle Switch DPDT £2:80**

Miniature switch centre off. 3 positions on/off/on. Hole required 4.5mm Rated 5A/28V DC suitable for directional switching ie: reversing polarity

## **EA054 Latching Push Switch SPST £2:00**

Latching push switch with small button fits into 7mm cut-out, thickness 4mm, silver plated brass solder terminals.

## **EA056 Sub Miniature Toggle Switch DPDT £1:40**

Sub miniature switch centre off. 3 positions on/off/on. Rated 5A/28V DC suitable for directional switching ie: reversing polarity

## **DC POWER CONNECTORS**

Ideal for DC vehicle battery charging circuits and radio transmitter charging also easily disconnectable for building/accessory lighting circuits.

## **EA060 DC Power Plug 2.1mm £1:00**

## **EA061 DC Power Plug 2.5mm £1:00**

Screw cover with moulded cable strain relief, nickel plated. Current rating circa 1 amp/16v DC max. 10mm shaft; 2.1 or 2.5 pin diameter; 5.5mm sleeve solder terminals.

## **EA062 DC Power Socket 2.1mm £2:00**

## **EA063 DC Power Socket 2.5mm £2:00**

Panel mounting supplied with washer and hex fixing nut, three terminal switched. Hole diameter 8mm panel thickness 2mm max accommodates pin diameter 2.1mm or 2.5mm. Sleeve diameter 5.5mm, solder terminals current rating circa 1 amp/16v DC max.

# BATTERY BOXES

Pictures shown are representative of the products and are not actual size.

## **EA073 2AA Open Battery Box £0:90**

Suitable for 2AA size batteries (not supplied) plastic case with push fit connectors which accept EA011/EA012 Battery Snaps 3 Volt

## **EA074 2AA Switched Battery Box £2:30**

Enclosed wired in 15cm fly lead and on/off switch, holds 2AA size batteries (not supplied) 3 Volt

## **EA075 2AA Flat Battery Box £2:60**

Flat formation suitable for 2AA size batteries (not supplied) plastic case with wired in fly leads 3 Volt

## **EA076 4AA Open Battery Box £0:75**

Square formation suitable for 4AA size batteries (not supplied) plastic case with push fit connectors which accept EA011/EA012 Battery Snaps 6 Volt

## **EA077 4AA Flat Battery Box £0:75**

Flat formation suitable for 4AA size batteries (not supplied) plastic case with push fit connectors which accept EA011/EA012 Battery Snaps 6V

## **EA078 4AA Switched Battery Box £2:00**

Enclosed flat formation with wired in 15cm fly lead and on/off switch, holds 4AA size batteries (not supplied) 6 Volt

## **EA079 6AA Open Battery Box £2:80**

Double layer formation for 6AA size batteries (not supplied) plastic case with push fit connectors which accept EA011/EA012 Battery Snaps 9 V

## **EA080 6AA Flat Closed Battery Box £1:50**

Enclosed flat formation with wired in 15cm fly lead holds 6AA size batteries (not supplied) 9 Volt

## **EA081 8AA Open Battery Box £1:25**

Double layer formation for 8AA size batteries (not supplied) plastic case with push fit connectors which accept EA011/EA012 Battery Snaps 12 Volt

## **EA070 2AAA Switched Battery Box £2:00**

Enclosed wired in 15cm fly lead and on/off switch, holds 2AAA size batteries (not supplied) 3 Volt

## **EA072 4AAA Switched Battery Box £2:50**

Enclosed wired in 15cm fly lead and on/off switch, holds 4AAA size

batteries (not supplied) 6 Volt

## **EA071 2AAA Flat Battery Box £0:85**

Flat formation suitable for 2AAA size batteries (not supplied) plastic case with wired in fly leads 3 Volt

## **EA058 Battery Snap Flexible £0:50**

Flexible cover to fit PP3 battery or boxes with snap terminals 15cm fly lead

## **EA059 Battery Snap Rigid £0:90**

Rigid cover to fit PP3 battery or boxes with snap terminals 15cm fly lead

## **EA085 PP3 Battery Holder £0:75** 9volt battery holder with fly leads
